## ATTACHMENT A TO FORM 4 STATEMENT OF CHANGES IN BENEFICIAL OWNERSHIP FOR JULIA LEVY

On May 9, 2002, effective July 15, 2002, Eduverse.com, a Nevada corporation now known as "GeneMax Corp." (the "Company"), GeneMax Pharmaceuticals Inc., a Delaware corporation ("GeneMax Pharmaceuticals"), the shareholders of GeneMax Pharmaceuticals (the "GeneMax Shareholders"), and Investor Communications International, Inc., a Washington corporation ("ICI") entered into a share exchange agreement (the "Share Exchange Agreement"). In accordance with the terms of the Share Exchange Agreement and the securities laws of Canada, a Directors' Circular dated July 15, 2002 (the "Directors' Circular") was distributed to certain management, insiders and directors of GeneMax Pharmaceuticals (the "Canadian GeneMax Shareholders"). As of the date of this Form 4, the Company has consummated and finalized the acquisition of GeneMax Pharmaceuticals.

## Stock Option Plan

On May 15, 2002 the Board of Directors of Eduverse unanimously approved and adopted a 2002 stock option plan which was approved by shareholders on July 15, 2002 (the "2002 Stock Option Plan"). Pursuant to the provisions of the 2002 Stock Option Plan, stock options may be granted only to key personnel of the Company; generally defined as a person designated by the Board of Directors upon whose judgment, initiative and efforts the Company may rely including any Director, Officer, employee or consultant of the Company or its subsidiaries. At the time a Stock Option is granted under the 2002 Stock Option Plan, the Board of Directors shall fix and determine the exercise price at which shares of common stock of the Company may be acquired; provided, however, that any such exercise price shall not be less than that permitted under the rules and policies of any stock exchange or over-the-counter market which may be applicable to Eduverse at that time.

The 2002 Stock Option Plan further provides that the Board of Directors may grant to any key personnel of the Company who is eligible to receive options, one or more Incentive Stock Options at a price not less than fair market value and for a period not to exceed 10 years from the date of grant.

On September 30, 2002 the Board of Directors of the Company approved the adoption of a new stock option plan (the "Plan") allowing for the granting of up to 3,500,000 options to directors, officers, employees and consultants of the Company and its subsidiaries. Options granted under the Plan shall be at prices and for terms as determined by the Board of Directors with terms not to exceed 10 years. The Plan further provides that the Board of Directors may grant to any key personnel of the Company who is eligible to receive options, one or more Incentive Stock Options at a price not less than fair market value and for a period not to exceed 10 years from the date of grant. Options and Incentive Stock Options granted under the Plan may have vesting requirements as determined by the Board of Directors.

In connection with the acquisition of GeneMax Pharmaceuticals Inc. ("GPI"), the Company granted 1,740,000 options and 245,000 incentive stock options at \$1.00 per share to previous holders of stock options of GPI to replace options previously granted by GPI at \$0.60 per share. In accordance with accounting principles applicable to accounting for business combinations, the fair value of the stock options granted in connection with a business combination is included in the determination of the purchase price. The fair value of these options at the date of grant of \$1,888,750 was estimated using the Black-Scholes option pricing model with an expected life of three years, a risk-free interest rate of 3% and an expected volatility of 226%.

In addition, also in connection with the acquisition of GPI, the Company granted 150,000 incentive stock options to previous holders of stock options of GPI with terms and conditions consistent with their original GPI stock options subject to straight line vesting for a period of 36 months commencing October 1, 2002. The fair value of these incentive stock options will be recorded as compensation expense over the vesting period. The fair value of these options at the date of grant of \$142,500 was estimated using the Black-Scholes option pricing model with an expected life of three years, a risk-free interest rate of 3% and an expected volatility of 226%.
